

An abstract painting by Maricarmen Bigler titled 'Contrastes'. The artwork is a complex composition of various geometric and organic shapes, primarily in shades of blue, yellow, and black. It features a central figure that appears to be a person or a stylized form, surrounded by intricate patterns and textures. The overall style is reminiscent of Cubism or Surrealism, with a focus on bold colors and dynamic forms. The background is a mix of light and dark tones, creating a sense of depth and contrast.
